Our office app

SKED is our new scheduling app! Set appointments without confirmation wait, see existing appointments and reschedule as needed. You will even be able to see what the busiest times of the day are using the color coding – so we can get you in and out quickly.

SKED will also replace our text system; send a message and communicate with us directly through the app using the MESSAGE action button.

(if you choose not to download the SKED app, scheduling will still be available through SKED online- link on the website. You will also still receive reminder texts.)
